

BE80402
Bering Optics Clip-On Adaptor

BE80402

PRODUCT OVERVIEW

The Bering Optics clip-on adaptor is a clip-on mounting system designed for Bering Optics Night Probe and Night Probe Mini. The adaptor features quick release levers to allow quick and easy installation. The clip-on adaptor with a suitable fitting ring placed inside the adaptor, can simply be slipped onto the device, adjusted by loosening or tightening the screws using a simple hexagon key and closed by pressing the levers down.

- BE80402 designed to fit with 30mm-56mm objective lenses, kit includes a clip-on adaptor with 3 fitting rings with internal diameters: d39mm, d56mm, d62mm (1.54", 2.20", 2.44") and a hexagon key
